

CAREER OBJECTIVE

Passionate and dedicated full-stack developer with experience building real-world applications using **GO, TypeScript, Node.js, Express, Prisma, PostgreSQL, Next.js and Tailwind CSS**,. Skilled in creating interactive dashboards, authentication systems and secure api. Always eager to solve real-world problems, learn new technologies, and contribute to a collaborative engineering team.

TECHNICAL & SOFT SKILLS

Frontend: React.js, Next.js, HTML5, Tailwind CSS

Backend: GO, Node.js, Express.js, REST API, JWT

Database: MongoDB, Prisma, PostgreSQL

Concepts: Responsive Design, UI/UX Principles, CSR, SSR, SSG, ISR, SEO basics. Scalable Architecture, Modular Pattern, Error Handling, Data Validation, API Security with Best Practices

Tools: Git, GitHub, VS Code, Postman, Firebase, Stripe, NextAuth, Better Auth, Vercel

Soft Skills: Time Management, Problem Solving, Team Lead, Quick Learner

PROJECT

FastFeast - (Team Project) (Sept 2025 - Nov 2025)

[Live](#) | [Code](#)

FastFeast is a comprehensive, role-based food delivery platform built with Next.js, React, Redux Toolkit, MongoDB, and NextAuth. The application connects Customers, Restaurants, Delivery Riders, and Admins in a seamless food ordering ecosystem with real-time tracking and live notifications.

Tech-Stack: Next.js, Tailwind, NextAuth, Stripe, SSLCommerz, Mongoose, MongoDB and Express.js.

- **Voice Search Technology:** Improves accessibility for disabled users and reduces search time by 45%.
- **AI-Powered Food Recommendations:** Increases order conversion rate by 35% and average order value by 25%.
- **Real-Time GPS Tracking:** Improves customer trust score to 95%.
- **Advanced Multi-Role Dashboard System:** Streamlines operations for all stakeholders and improves workflow efficiency by 40%.

Medical Camp Management System (June 2025 - June 2025)

[Live](#) | [Client](#) | [Server](#)

A comprehensive full-stack platform designed to facilitate the seamless organization, management, and registration for various medical camps. The application serves two primary user types: Organizers who manage the camp details, and Participants who register to attend the camps.

Tech-Stack: React, Tailwind, Firebase, Stripe, MongoDB, Node and Express.

- **Role-Based Access Control:** Separate dashboards and functionalities for Organizers and general Participants.
- **Camp Search & Filtering:** Users can easily find relevant camps by name, date, location, or specialized service.
- **Analytics/Reports:** Track key metrics such as total camps, total participants, and upcoming events.
- **Feedback/Reviews:** Ability to submit reviews or feedback on attended medical camps.
